How a Young Man Frit.-Last Summer, it will be remembered, H. V. Miller, railroad and express agent at White Cloud, suddenly absconded. Several small amounts of money were unaccounted for, aggregating less than \$1,000, and it was wondered that he should go off with so trifling an amount, when he had had many opportunities to take much larger ones. A Nebraska gentleman, who kne take much larger ones. A Neutraka genusinan, who knew Miller, a short time since ran across him, (where, he did not state,) and Miller told him the cause of his running away. He said that he had been entired into gambling by a mar

rho has set himself up for a leader of the comwho assumes to control the public sentiment of the town and that this man had swindled him out of money which had been placed in his hands to torward by express. This ney included the bulk of the amounts und In a day or two afterwards, he heard that the general agenf the Express Company was on his rounds, and would be there in a day or two; and having no means of replacing the money that he had been swindled out of in the gas bling den, he could not bear to meet his inevitable expos are, but decamped.

And thus it goes. Miller was a young man, but lately narried, and was bonest-his books, aside from the small amount of express money missing, were found to be correct. But a man who hang around his office, pretending to be his friend; who did considerable business with him, and probably kept an eye on the money that passed into his hands, and knew when he was flush; this man, who is looked upon by a large class of the community as a public lead er, and who assumes to hold in his grasp the political and educational interests of the town—this man, who should have been an example and a protector to the young and in-experienced, enticed this young man into a gambling hole. re fleeced him ont of money which he held in trust for others, sending him a fugitive, to avoid disgrace and punishment. And to cap the meanness, the human blood-hounds of the same class circulated slauders against the virtue of the young man's wife, to create the impo that it was her conduct that drove him away! It is high time the days of such men, influence and power were

STILL SQUIRMING.—The poor Route Agents on the Dea ver Road have another card in the last Republican, to reply to the Chief, lu which they say that they make up mails for that road, and the St. Joseph Post-office is not responsible for mistakes. We are glad to hear it, because confirms our former good opinion of the careful and effi-cient management of the St. Joseph Post-effice. Then, the Route Agents alone, by their own confession, are responsible for the numerous mail blunders. So much has come of their hot hoste to rush into print. After many and repeatad instances of miscarriage of the mails, we very mildly, as we thought, suggested that the Route Agenta should be a little more careful. Forthwith they exhibited their fusa and feathers, and denounced a friendly bint as a wholesale slander. And now, notwithstanding all these indignant four (two pairs) may say to the contrary, or the certificates they may obtain to back them, we repeat, that the blur ders spoken of mere committed, and that frequently. The Republican containing their last pronunciamento came out on Friday afternoon, the 20th inst., and that very afternoon, the mail train from the West brought us a lot Lonia and Cincinnati papers; and two packages of electrotype plates from St. Louis, which, we had been notified, had been mailed to us two days before the date of the notification. This calls for another card from the poble for

SICKNESS.-The past Winter has been the most sickly one ever known in Northern Kansas-doubtless caused by the open, damp Winter, and many sudden changes in the weather. A singular feature has been the fact that a very large proportion of the deaths have been of young men and women. White Cloud, heretofore noted for being a healthy location, has had a large amount of sickness, and quite a number of deaths. At Hiawatha and vicinity, the number of deutles has been fearfully large. Oregon, Mo., has bad much sickness, but not a large proportion of deaths. Dif-ferent locations in this County have suffered considerably. But amid all the sickness, the exemption of Troy and vicinity is worthy of mention. There has probably been less sickness here than in any Winter ever before known. Troy has cause to be thankful in having been more favored

Tuesday, we treceived a call from our old friend. Joseph Morehead, who is here visiting his brother, Wm. C. Morehead. Joe. was one of the old White Cloud boys of '57, the days when we used to have "dead loads" of fun up there, with our ups and downs. There are not many of them left there; but wherever they may have stuck their look over the old ground. We are always glad to meet them, and to know that they are doing well. Mr. Morehead is now a prosperous dealer in shoes, hats, caps, leather, etc., in Urichsville, Tuscarawas, County head of a happy family, and settled for life.

THE LIEST CASE.-This case was started Wednesday night, and lasted through Thursday, and almost through Friday. HIGHLAND NURSERY. HIGHLAND NURSERY, January 25, 1874. The subscriber again offers to the tree-planters of Doni phan and adjoining Counties an extra choice lot of two and three-year-old Apple Trees. Having taken unusual pains in selecting my sciens from bearing trees for the past three years, I can confidently recommend them. The experience of the farmers of this County has proved that some variethat others can hardly be overrated. The knowledge gained by the repeated trials and repeated losses of the of farmers in this part of Kansas, I endeavor to obtain by personal acquaintance, and then make use of in grafting. I cannot raise as cheap trees nor so many of them as in the old way, but I can raise better ones. Again: I form the heads of these trees about 2j to 3 feet from the ground carefully trimming off all side shoots the first and second year, avoiding forks, and giving un'form heads of three to four branches each. I claim that one such tree, thus trained, and of a good variety, is worth a hundred two and three-story trees, that have been neglected in their earlier growth. I have 100,000 two and three-year-old trees ready for the market, and propose to sell the best at the very low price of \$10 per hundred. I will as heretofore, exchange them for young cattle, corn and small grain. I have also a choice lot of No. 1 home-grown Hedge Plants for the Spring trade. Thanking old customers for their continued natronage

and hoping for a fair share of the new ones, I proteins my best endeavors to please all.

Business not Affected. The recent depression in business has not affected the passenger traffic of the St. Louis, Kansas City & Northern Short Line, as they continue to run six fast express trains two more than any other line between the Missouri are Mississippi Rivers. This road enjoys great immunity from accidents, by reason of immense expenditures in the last two years, of over two million dollars, besides earnings, in wonderful improvements, in relaying their line with new steel and iron rails, on broad new ties, in new rolling safety, and as another safeguard, employ night and day atchmen to inspect the road before and after the passage of each train, to see that everything is in order. Consp cious among new improvements is the substitution for or dinary cars, of new reclining chair coaches, elegantly car peted and fitted with dressing rooms for ladies, gentleme and families, without any extra charge. The St. Louis, Kansas City & Northern and the Kansas City, St. Joseph & Council Bluffs Railroad form the only line running through Pullman Palace Sleepers between Omaha and St. Louis. The shortest line between the West and the East is over the St. Louis, Kansas City & Northern Short Line either through St. Lonia, the great metropolis of over 650,000 inhabitants, or through Chicago, rig the Chicago, & tants, or through Chicago, ris the Chicago Alton Short Line, over the Louisiana Bridge now open for passage of through trains. Ticket Agents of connecting roads selling through tickets to the East, North or South, will furnish tickets by this excellent line. There is no pain which the Centaur Liniment will not relieve, no swelling it will not subdue, and no lamences which it will not cure. This is streng language, but it is true. It has produced more cures of rheumatism, neuralgia, lockjaw, palsy,

sprains, swellings, caked-breasts, scalds, burns, salt-rheum, ear-ache, &c., upon the human frame, and of strains, spavin, galla, &c., upon animals, in one year, than have all other pretended remedies since the world began. It is a counterrritant, an all-healing pain reliever. Cripples throw away their crutches, the lame walk, poisonous bites are rendered harmless, and the wounded are healed without a scar. It is no humbug. The recipe is published around each bettle. It is selling as no article ever before sold, and it sells because it does just what it pretcods to do. Those who now suffer from rhoumatism, pain or swelling, deserve to suffer if they will not use Centaur Liniment. More than 1,000 certificates of remarkable cures, including frozen limbs, chronic-rheumatism, gout, running tumors, &c., have been received. We will send a circular containing certificates, the recipe, &c., gratis, to any one requesting it. One bettle of yellow wrapper Centaur Liniment is worth one hundred dollars for spavined or sweepled horses and males, or for recew-worm in sheep. Stock-owners-this liniment is worth your attention. No family should be without Cen-taur Liniment. Sold by all Druggists. 50 cents per bottle; large bettles, \$1.00. J. B. Rose & Co., 53 Breadway, New
